PROFESSIONAL SUMMARY

MERN Stack Developer with approximately 1.5 years of web development experience, focused on building responsive and user-friendly web applications. Familiar with React.js, JavaScript, Node.js, Express.js, MongoDB, and Tailwind CSS, with practical project experience across frontend development, REST API integration, and database-backed features.

TECHNICAL SKILLS

Frontend	React.js, JavaScript, HTML5, CSS3, Tailwind CSS
Backend	Node.js, Express.js, REST APIs
Database & Tools	MongoDB, Git, GitHub, npm, Vite

SELECTED PROJECTS

Doctor Appointment SaaS

A doctor appointment web application with patient and doctor flows, authentication, doctor listings, appointment booking, and appointment management. Built using React.js and an Express/Node.js backend with MongoDB.

Movie App

A movie browsing application with movie discovery, search, categories, and responsive user interface, built with modern React.js frontend practices.

GitHub Profile Search

A GitHub profile search application that fetches and displays public GitHub user information, profile details, repositories, and related statistics using an API.

Note App

A responsive note-taking application with note creation, editing, deleting, searching, categories, priorities, pinning, and archiving features.

EXPERIENCE

Web Development Experience | Approximately 1.5 years

Hands-on practice building web interfaces and full-stack application features through personal projects.

EDUCATION

Bachelor of Science in Information Technology (BS IT)
5th Semester
